

REDUCING METHANE EMISSIONS

ADVANCING CALIFORNIA'S SUSTAINABILITY STRATEGY

CRC's 2030 SUSTAINABILITY GOAL
50% METHANE EMISSION REDUCTION*

This Goal is **MORE STRINGENT** than the **STATE'S GOAL** of **40% METHANE EMISSION REDUCTION**

CRC SURPASSED METHANE REDUCTION GOAL* through 2019

CRC's 2030 Goals demonstrate our long-term commitment to sustainable in-state energy production that meets the needs of California's growing population and California's leading safety, labor, human rights and environmental standards.

* Measured against a 2013 baseline, the year before CRC's formation and a baseline for several state goals.

CRC participates in **The Environmental Partnership**, a coalition committed to continuously improving environmental performance and securing America's long-term energy future.
