TAKING ACTION TO REDUCE METHANE EMISSIONS

**CRC's 2030
SUSTAINABILITY GOAL**
**50% METHANE
EMISSION
REDUCTION**

This Goal is **MORE STRINGENT** than the **STATE's GOAL** of **40% METHANE EMISSION REDUCTION**

**CRC SURPASSED
METHANE REDUCTION GOAL***
**WITH 70% REDUCTION
THROUGH 2020**

*Measured against 2013 baseline, the year before CRC's formation and baseline for several state goals.

- CRC'S GOALS**
- WATER**
- RENEWABLES**
- METHANE REDUCTION**
- CARBON CAPTURE**

CRC's goals demonstrate our long-term commitment to **sustainable in-state energy production** that meets the needs of California's growing population and California's leading **safety, labor, human rights and environmental standards.**

CRC participates in **The Environmental Partnership**, a coalition of oil and natural gas companies committed to continuously improving the industry's environmental performance and securing America's long-term energy future.
